MAN AND CHILD.

TRANSLATED FROM THE GERMAN.

The farmer stands before the field,
His furrowed brow his trouble shows;
"Right faithful care the land has had—
From best of seed was done the sowing;
See now the weeds so high that spring!
The wicked one has done this thing!"

There comes his little son to join,
And laden with the cornfield's splendor,
The low, wild poppy's scarlet flame
With heavenly blue and purple tender;
He shouts, "See, father, see how fair!
The dear Lord God has set them there!"

FORTUNE TELLING.

One of our exchanges is responsible for the following story relative to this popular and pernicious vice:—

Not many evenings since it is recorded that a sinner who had escaped hanging for, lo! these many years, was in company with several ladies. The subject of fortune telling was introduced. Several of the "angels" pleaded guilty to the soft impeachment of having written to Madam This and Madam That to furnish them leaves in their future history. Instances were mentioned of, some very remarkable developments in a certain case heretofore.

Old R. was asked for his opinion. He replied: "So far as I am personally concerned, I know more about myself than I wish to. I don't think any good comes of those things. I had a friend who dressed himself in his wife's clothes and called upon a celebrated prophetess. He did not believe she would discover the disguise, but he heard what made him exceedingly unhappy." Here the old reprobate ceased. A lady much interested asked, "What did she tell him?" "She told him he was to marry soon, and become the father of ten children!"

NEWPORT.

Thursday, March 14, 1867.

NEW HAMPSHIRE.

The election in New Hampshire is a very favorable opening of the series of which it is the first. In spite of the strenuous efforts of the Democrats, the State has gone Republican and Union by a majority as gratifying as it was unexpected. A break in their ranks took place soon after the nomination of Gen. Harriman as the candidate for Governor, which might have produced serious results had Mr. Stearns, the favorite of a portion of the party permitted his name to be used as the nucleus of a third party. As it was, the indifference of many to the success of Gen. Harriman prevented the entire exertions that would have been made, and reduced the Republican strength. The party did not poll a full vote, while the Democrats strained every nerve, calculating upon the accession of from one to two thousand disaffected Republicans. They appear to have gained something from this source in some localities. Yet the result is as favorable to the Republicans as last year, with a gain in the House of Representatives, an equal majority in the Senate and a majority on the Governor vote of from three to four thousand.

The key note is well struck for the States that are to follow. The canvass shows the necessity of unity and vigilance on the part of Republicans everywhere. The Democrats are rallying their forces and making great efforts toward a complete organization of their party throughout the country, and it is no time for listlessness in the Republican ranks. It is plain from the result in New Hampshire that there is strength and vitality in the Republican organization sufficient to control the elections in the loyal States, and that its issues are deemed of vital importance by the mass of voters. In this State it is important that as good a show be made at our coming election as New Hampshire has made, and that a full Republican vote be brought out at the polls.

Friends of the Negro.

One of our Democratic friends asks us to publish an article on the above subject. He represents the "Black Republicans" as indifferent to the claims of needy colored men when applied to for aid, in comparison with the promptness of Democrats in rendering such assistance, and cites some instances alleged to have occurred in this city illustrating his statements. As to the facts we have only the authority of his assertions, which we regard as reliable. But, in reference to aiding indigent colored persons, no one will deny the right of our Democratic friends to do so when the opportunity is presented; and, if proof of the propriety of the individuals of that party showing some sympathy for the negro race is desired, we need only refer to the acts of the party for a quarter of a century, the entire policy of which has had but one purpose, which is to retain in slavery those who were in that condition and reduce as many as possible of the free to slavery; to throw every possible obstruction in the way of emancipation and of their elevation to manhood and citizenship when emancipated. A party whose spokesmen are Saulsbury, Garrott Davis, the Woods and Vallandigham, ought to seek for a decrease of the odium to which it is condemned for its course toward the negro; and we hope all who are of that political faith will seek out and relieve all the colored people who have lost their homes and relatives through the rebellion which the adhesion of their party to slavery and all its blessings brought upon the country.

All these proofs of the past and undying friendship of the Democrats for the negro do not exonerate Republicans from doing whatever is in their power for his benefit; and we hope they will be closely watched, in Congress and out, to ascertain if they do their whole duty to these helpless ones whom Democratic policy has made the wards of the nation.

THE POLITICAL SITUATION IN CALIFORNIA. The question of who shall be the next Governor seems to be settled in favor of Mr. Bidwell. All the Republican papers in Northern California support him; the Santa Cruz Argus and Solano Herald have published articles in his favor, and the Sacramento Union does not oppose. The other persons named for this position are Mr. Low and Mr. Gatham. About the nominations for Congress the San Francisco Bulletin says: "When it seemed a special election might be ordered good reasons were urged for returning the present delegation, but there is now a wider choice. Several interior journals betray a prejudiced opposition to McRuer, and read him out of the party he has served for eleven years, for one vote, concerning which they know next to nothing. Higby is also opposed by some papers because he counselled moderation on the impeachment question! The Sacramento Union, which pronounces McRuer a renegade for his vote on Boutwell's Test Oath bill, hopes Higby's name will be kept before the people. It looks as if personal malice ruled in McRuer's case."

The New Bedford Mercury says that Recorder Hackett, Judge Bernard and Mr. Anderson of New York city, have purchased Pune Island, or Penequese. It lies a little north of Cuttyhunk, and is three-quarters of a mile long and half a mile broad. It is designed by the purchasers as a yacht depot.

WASHINGTON GOSSIP.—A Washington letter furnishes the subjoined items which will be of interest to many:

The Senate of the Fortieth Congress has been improved in looks, at least, by the new Senators who have been sworn in. The body now contains fifty-six Senators, nearly one-third as many as there are members of the House. When all of the States are represented in the Senate there will be seventy-four Senators, forming a body as large as the House of Representatives twenty years ago. Of the new Senators, Cole of California, Conkling of New York, Corbett of Oregon, Patterson of New Hampshire, Thayer of Nebraska, Morrill of Vermont, and Morton of Indiana, are all fine looking men, having the physical appearance of great men, even if their mental calibre should not be found to be in proportion. They seemingly give more stability and dignity to the Senate than did their predecessors, while Messrs. Conkling, Patterson and Morrill have demonstrated in the House that they are worthy of their high honors in the Senate.

A few weeks ago several New York politicians had an interview with the President and came away fully satisfied that he contemplated a change in his Cabinet. Mr. Horace Greeley was one of the number, and felt no doubt but there would be a speedy change. It is very apparent now, however, that nothing of the kind is going to occur. The President is undoubtedly satisfied with his Cabinet, even with Secretary Stanton, who is well known to vote in Cabinet uniformly against the President's views and in support of the Congressional policy.

With regard to the crowd of people here now, a morning paper remarks that during business hours yesterday the White House was besieged by visitors, many of them ladies, and a great many obtained interviews with the Chief Executive. The country, all parts of it, seems to be fully represented at the capital now. It is fearful to contemplate the large number of people who are anxious to serve their country—for a *quid pro quo*, of course—just at this dangerous crisis.

The Congressional Temperance Society has produced a great work of reform here. It is believed that there is but one Senator left who is a habitual drinker, with but two members of the lower House. The public will doubtless learn some day that the Senator alluded to has been reformed.

THE PACIFIC RAILROAD was commenced in 1863, but opposition and other drawbacks hampered its progress greatly. It is now finished, and the locomotive is running ninety-three miles eastward from Sacramento to Cisco station. This is within twelve miles of the dreaded summit of the Sierras. The elevation above the sea of each of the principal stations on the route thus far are as follows: Newcastle, thirty-one miles from Sacramento, 930 feet elevation; Colfax, sixty-two miles, 2,448 ft.; Dutch Flat, 67 miles, 3,375 feet; Cisco, 93 miles, 5,911 feet. The road is now graded close to the summit, which will be crossed at an elevation of 7,050 feet. By far the most difficult part of the road has now been built; that from the summit down the mountains eastward will be comparatively easy, and the grade light. In coming up, the highest allowed grade, 116 feet to the mile, is but once reached: the average ascending grade to the summit is but 75 feet to the mile. In descending the eastward side of the Sierras, ninety feet will be the greatest descending grade, and the average only forty feet. When the eastern base of the Sierras is passed, there is almost a natural grade to the westerly base of the Rocky Mountains. This part of the road can be built ten times more rapidly and about as much more cheaply than that already done. All the hard work came at first when the company were struggling with not a sea only, but seas of opposition, and while the funds in their treasury were not as plenty as now. Had this road fell into the hands of speculators it would probably never have been built, but it was taken hold of by a number of the richest and most enterprising men in the State. They have given it and are giving it all their time, their energies and their influence, and above all, their money. All the county, State and national monetary aid that was received has been thrown into the work; and this terrible earnestness that has characterized its managers was what silenced opposition more than anything else, so that its former greatest detractors are now its warmest friends. And it was no sentimental wish alone to see the road completed that made its owners give to it so lavishly. They knew well the great present trade and the yet comparatively undeveloped resources of the extremely rich country that is waiting for the development that the road will give; and they know, also, that every dollar expended upon it will come back with interest in a very near future after its completion, and that one share in their hands with the road built will be worth two while it is unfinished.

Resolutions in favor of recognizing the Irish as belligerents were offered in the House by Mr. Donnelly of Minnesota. They assert that as the British Government were over hasty in recognizing our own rebels, and are still disinclined to pay us any indemnity for Anglo-Rebel outrages, the United States has no reason to be slow in recognizing the belligerent claims of the Irish. The resolutions aver that the Irish people are enlisted in an effort to establish a Republic on the basis of universal suffrage and the separation of Church and State. Mr. Stevens objecting, and the House refusing to suspend its rules, the resolutions went over.

LARGE SEIZURE OF "BOB" VEAL.—On Saturday the sanitary police of New York seized more than five hundred carcasses of immature veal at Washington Market, which, but for the seizure, would have composed many Sunday dinners among the poorer classes.]

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE.

TUESDAY, March 12.

Senate.

The Senate met at half-past ten o'clock, His Excellency the Governor in the chair.

Mr. Currey, for the committee on the Judiciary, reported an act concerning town and city libraries, and the House amendments were concurred in.

Also, an act to prevent masquerades and masked balls, which lies on the table.

Also, an act in addition to Chapter 199 of the Statutes—Of the relief of poor debtors; and the House amendments were concurred in.

Also, an act regulating the sale and storage of certain explosive substances: and the House amendments were concurred in with other amendments.

Also, an act in relation to appeals from Town Councils, which was passed in concurrence.

The Governor presented the petition of Angelius Tossett for leave to sell Indian lands: which was referred to the committee on the Judiciary.

Also, a communication from the Governor of North Carolina, communicating resolutions of the Legislature of that State, relative to reconstruction which was read, ordered to be communicated and referred to the Committee on Executive communications.

Mr Currey, for the committee on the Judiciary, reported an act in addition to Chapter 150 of the Statutes—Of Testate and Intestate Estates; which was ordered to be printed, and lies on the table.

Acts providing for the construction of draws eighty feet wide in the Central and Washington bridges over the Seekonk river were taken up and discussed by Messrs. Currey and Grosvenor.

The act relative to the Washington Bridge was passed by the following vote:

YEAS—His Honor W. Greene, Messrs. Anthony, Brown, Butler, Chase, G. H. Church, N. Church, Cook, Emerson, Gerald, Grosvenor, J. T. Harris, Hopkins, Hubbard, King, Moies, Osborne, Peckham, Potter, Smith, Steere, Stevens and Tew—23.

ABSENT.—Messrs Ball, Browning, Burgess, S. W. Church, Chaplin, Congdon, Currey, Greene, G. Harris, Hazard, Kenyon.

The act relative to Central Bridge was then unanimously passed.

Mr. Grosvenor for the Committee on Finance, reported a resolution permitting John N. Perkins to peddle without a license; which was passed in concurrence.

Also, a resolution to reimburse the town of Hopkinton, which was passed in concurrence.

Also a resolution, regarding the adjustment of accounts between certain State Officers and the State; which lies on the table.

Also, a resolution fixing the salaries of certain officers for the year 1865—that of the Adjutant General at $1200, of the Quartermaster General at $500 and of the Paymaster General at $400.

The committee recommended a substitute providing for the payment of salaries at the rate of $500 for the Adjutant General, $300 for the Quartermaster General and $100 for the Paymaster General.

The Governor said he thought the substitute contemplated great injustice to the officers named.

The Adjutant General said he was entitled to his full salary, not only for the time when he was actually discharging the duties of his office, but also for the time during which he was prevented from performing them by the pendency of certain charges, from which he was finally discharged. He thought the amount proposed to be paid was much smaller than had been earned by the officers, and much smaller than they have a right to consider themselves entitled to, in view of the amount of labor performed by them.

Mr. King presented a substitute, fixing the salary of the Adjutant General at $1000.

On motion of Mr. Hubbard, the whole matter was recommitted.

An act in amendment of Chapter 145 of the Statutes—Of the Supreme Court (from the House) was referred to the committee on the Judiciary.

A resolution to pay the account of E. S. Babcock, jailor, (from the House) was referred to the Committee on Finance.

Mr. King presented the petition of A. E. Burnside and others, for an act to incorporate the Norwood Coal Co., which was continued with order of notice.

Also, an act in amendment of Chapter 220 of the Statutes—Of salaries, fees, etc.—fixing the salary of the Clerk of the Court of Common Pleas for the county of Providence; which was referred to the committee on the Judiciary.

The act fixing the salaries of the Associate Justices of the Supreme Court was made the special order for Wednesday.

An act in amendment of Chapter 220 of the Statutes—Of salaries, fees, etc.—fixing the salary of the School Commissioner, was passed in concurrence.

The Senate adjourned to Wednesday morning at half-past ten o'clock.

House of Representatives.

The House met at half-past ten o'clock, Mr. Speaker Van Zandt in the chair.

Mr. Mowry, of Smithfield, introduced an act in amendment of Section 2, Chapter 125—Of Town Sergeants and Constables. Referred to the committee on the judiciary.

Mr. Aylesworth, of Providence, presented the account of Colonel Henry Crandall, A. D. C., against the State. Referred to the committee on finance.

Mr. Weeden, of Westerly, introduced a resolution, which was adopted, tendering the use of the Marine Artillery Armory to the Democratic State Convention.

Mr. Weeden of Westerly, moved a reconsideration of the license law, which was carried, for the purpose of introducing the follow amendment.

SEC. 10 Upon complaint in writing upon probable cause, supported by oath or affirmation before a Magistrate qualified to administer an oath or affirmation, and describing as nearly as may be the premises and things to be seized, it shall be the duty of the State Police in the county where complaint is made, and the Chief of Police of the City of Providence, and the City Marshal of the City of Newport in their respective cities, whenever the evidence is such as in their judgment to justify an indictment of any person for keeping and maintaining any such common nuisance as is described in the several sections of Chapter 73 of the Revised Statutes, to seize all intoxicating liquors found on his premises, and hold the same until a trial can be had before a Grand Jury of the county wherein such seizure is made; and it shall be the duty of the Attorney General to present such person or persons at the next meeting of the Court in said county and proceed against him or them according to the usual forms of law.

Mr. Weeden said the proposed effect of the amendment was that whenever the people of any town or city should decide to break up a liquor nuisance they should not be baffled in their effort. It therefore put it into the power of executive officers, under the law of the State, to take possession of the premises, close them up, and also to sell the liquors, in order that the party may not go on violating until the Court meets.

Mr. Lapham of Burrillville, objected to the passage of any more laws that would make the State liable for the seizing of property. He thought there were elements of great danger in the amendment.

On motion of Mr. Durfee of Tiverton, the act was laid on the table till to-morrow morning, to allow time for the further perfecting of the amendment.

Mr. Perry of Bristol introduced an act in amendment of Chapter 521—Of Dogs; which was referred to the committee on the Judiciary.

Mr. Babcock of South Kingstown, presented the petition of citizens of that town for a prohibitory law; which was laid on the table temporarily.

Judge Greene presented the petition of Oliver S. Baker and others for confirmation of title to real estate; which was referred to the committee on the Judiciary.

Mr. Weeden from the committee on Finance, reported back the petition of E S. Babcock, for reimbursement; which was granted and resolution passed allowing $196 34.

Also the account of Capt. John A. McCloy against the State, and the petitioner had leave to withdraw.

Also, favorably upon the petition of the Court of Magistrates, Providence, for increase of salary, which was recommitted for correction.

Mr. Sheffield introduced an act in addition to Chapters 72 and 641—Of Internal Police, and also a resolution relating to slaughter houses Referred to the Committee on the Judiciary.

Mr. Binney of Providence, presented the petition of J. O. Collins and others for an act to incorporate the American Paper Tube Company, which was referred to the committee on Corporations, subsequently reported back from that committee and continued to the next session with order of notice.

Mr. Gardiner of Providence, from the committee on the Judiciary, reported back an act to enable towns to establish Justices' Courts, and to increase the jurisdiction of Courts of Magistrates or Justices. The House concurred in the Senate amendments.

Also an act in relation to the Attorney General, providing for the appointment of an Attorney General *pro tempore* in certain cases. The House concurred in the Senate bill with the amendment.

Also an act in amendment of Chapter 19—Of Executions; relating to the imprisonment of females for debt.

Mr. Lapham of Burrillville, opposed the bill, and moved to strike out the fourth section.

Mr. Weeden moved that the act be recommitted, with instructions to make its provisions applicable to men as well as women; which was carried.

Judge Greene, from the Committee on the Judiciary, reported back an act in amendment of Chapter 146, Title XXV—Of the Supreme Court—designed to expedite the administration of equity jurisprudence. The act passed.

Mr. Sheffield, from the Committee on the Judiciary, reported back the communication from School District No. 7, of the Town of Portsmouth (comprising Prudence Island) and the accompanying resolution was concurred in with an amendment providing for the division of the District.

Also, adversely upon the act in amendment of Chapter 196—Of Actions, designed to abolish the distinction between law and equity; which was indefinitely postponed.

Also, the act in amendment of Chapter 150—Of lien of Mechanics; which was non-concurred in.

On motion of Mr. Weeden of Westerly, it was voted to increase the number of the Finance Committee by the addition of two members. The Chair appointed Messrs. Ballou of Smithfield, and Bush of Newport.

(From the Senate.)

The resolution permitting Justices' Court to be held in the Court House at Bristol, was referred to the Committee on State Property.

The communication from the State of North Carolina, was referred to the Committee on Executive Communications.

The amendment to the act relative to kerosene oil, &c., was concurred in.

The petition of Jacob Dunnell and others for widening the draws of bridges across Pawtucket and Seekonk river, was referred to the Committee on the Judiciary.

Adjourned.

SCHENCK'S MANDRAKE PILL

A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

TO give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain, and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner: The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration, while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz., Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

Saint Patrick's Day.

The yearly return of the National Festival of Irish American citizens, will this year, be celebrated with more than usual *eclat*; combining both a Military and Civic display, the Feast proper falling this year on Sunday, the celebration thereof will be deferred to Monday the 18th inst, and the following we understand will be the programme. At 9 A. M. the different bodies in communion with Saint Mary's church will assemble on Levin St. and preceded by the 3rd (Artillery) U. S. Band, will march to the Church to attend Solemn High Mass, the pastor Very Rev. William O'Reilley V. G. officiating: the solemnization of which will close the first part of the observance of the day, and the Societies will be dismissed to re-assemble at 12.30 P. M. to form the Order of March for the Procession as follows:

1. Third U. S. Artillery Band under the leadership of Professor Stack.
2. Escort of two Companies "Aquidneck Rifles," Rhode Island State Militia under command of Acting-Colonel William K. Delany
3. Saint Mary's Catholic Benevolent Society under the Marshalship of Mr. Jeremiah O'Sullivan Jr., assisted by aids.
4. Field Music.
5. Aquidneck Cadets in full uniform.
6. St. Aloysius Juvenile Society in regalia.
7. Aquidneck Drum Corps.
8. Guardian Angel Society wearing their badges.
9. Barouche, containing the President of the Society Very Rev. William O'Reilly, V. G. and chaplain Rev. E. A. O'Conner

The Line of March will be taken up at 1 P. M. as below.

Down Levin St. to Spring, up Spring to Pelham up Pelham to Touro up Touro to Kay St. up Kay to Mann Avenue, down Mann Avenue to Broad down Broad to the Parade, where the Military will go through Review, Battalion movements and Dress Parade, under command of General T. W. Sherman; after which the column will resume its line of march up Thames to Bridge down Bridge to Washington, Washington to Long Whar up Long Wharf to Thames down Thames to Dearborn up Dearborn to Perry thence to South Touro up Touro to Bowery down Bowery to Spring up Spring to Levin St. where the line will be broken until 7½ P.M. at which time it will re-unite to hear a Panygeric or Saint Patrick which will be delivered in St. Mary's Church by the Rev. Father O'Conner and the ceremonies of the day brought to a *finale* by appropriate religious exercises.

Honors to a Newport Boy.

We mentioned on Friday last the extensive Geological Survey voted by Congress to extend from the Sierra Nevada to the Rocky Mountains. It may not be generally known that this important enterprise was introduced and carried through in great measure, through the efforts of Mr. Clarence King, a native of this city, who has since been appointed its chief engineer. This appointment, received by a young man of only twenty-five years, on the recommendation of such men as Professors Dana, Agassiz, and Whitney, is a distinguished honor. Mr. King is the son of the late James R. King, Esq., of this city,—is the grandson of our well known philanthropist, Mrs. Sophia L. Little, and is a great-grandson of the late Hon. Asher Robbins, well known in public life. He has been employed for some years on geological surveys in California and Arizona.

Fire.—Destruction of Ocean Cottage.—The building known as the Ocean Cottage, located on the brow of the hill over-looking the bathing beach, and owned by Mr. Charles L. Stephani, was totally destroyed by fire about 2 o'clock this morning, together with most of its contents. The house was unoccupied, Mr. S. with his family, being absent in N. York. We understand most of the furniture was removed from the house about two weeks since. The building was insured for $2,200, in the Narragansett office, Providence, and the contents for $1,500 in the Commerce, Albany, which will doubtless cover the loss.

This house has a somewhat unenviable history, and could well be spared. It will be recollected that a murder was committed there three or four years ago.

We have received from Senator Anthony a copy of the Bankrupt Law recently passed.

Preservation of life at sea.—In accordance with the suggestions of Capt. W. M. Mew, the Secretary of the Treasury has directed the supervising inspectors of steamboats to give public notice to inventors and others interested in valuable inventions which are presented for the preservation of life at sea, to meet at New York on the second Monday in April next, for the purpose of submitting to examination and experiment their inventions before a commission, to be appointed by the Secretary, to examine and test the merits of such inventions of a life saving character as may be brought before them. It is said the inventions will embrace boilers, steam engines, anti-incrustators, safety valves, steam gauges, water gauges, steering apparatus and life boats with detaching apparatus. Inventors may appear in person before the commission for the purpose of explaining their inventions, but no expenses will be allowed under any circumstances.

The Russian Telegraph Abandoned.—The World says that at a meeting of the Directors of the Western Union Telegraph Company last week, it was decided, that in view of the successful working of the Atlantic cable, it is not advisable to expend any more money on the Russian extension at present. The distance across the Russian territory yet to be completed is about 3,000 miles.

It is stated on excellent authority, that the President has, after a long interview with Gen. Grant and the Secretary of War, decided upon the following arrangement for the southern military commanders under the reconstruction act:—General Schofield for Virginia; General Sickles for North Carolina and South Carolina; General Thomas for Georgia, Florida and Alabama; General Sheridan for Louisiana and Texas, and General Ord for Mississippi and Arkansas.

A pompous fellow made a very inadequate offer for a valuable property; and, calling the next day for an answer, inquired of the gentleman if he had entertained his proposition. "No," replied the other, "your proposition entertained me."

The Count of Flanders, heir to the throne of Belgium, is to be married to the beautiful Princess Mary of Hohenzollern, on the first of May. That may mean that Prussia unites with England to secure the independence of Belgium.

"Father," said a little fellow, apparently reflecting intently on something, "I shan't send you any of my wedding-cake when I get married." "Why not, my son?" was the fond father's inquiry. "Because," said the young hopeful, "you didn't send me any of yours."

The Maine Legislature, at its recent session, submitted the question to the people whether the first offence of illegal liquor selling shall be punished by imprisonment. It also passed a law providing for the appointment of a State Constable, who may have ten deputies in each county. The Constable and his deputies have all the common law and statutory powers of constables, except the power to serve civil processes; and also in all the cities in this State, all the powers given therein to city marshals, police officers and watchmen.

The Scenery of the Upper Missouri.—A traveler on the upper Missouri describes the scenery between Arrow and Eagle rivers as very novel and picturesque at many points. About three miles above Arrow river is the "Grand Tableaux," which resembles a group of giant statuary. One mammoth figure is named Daniel Webster. Three miles above is "Castle Rock," which presents a scene superior, it is said, to anything on the Hudson or Rhine. Three miles beyond this is Citadel Rock, a peak of basalt about two hundred feet high rough and jagged, tapering to a sharp point, which is apparently inaccessible. On its upper side the basalt has cooled in long prisms, which seem to radiate from a common centre, presenting an appearance like imperfect segments of arches. It is a very remarkable object. There is another rock similar to it about three miles further on. Four miles above is a beautiful imitation of a small gothic church, of light colored stone. Another object of interest is the "Grand Natural Wall," which runs from the water to the top of the bluffs, probably four hundred yards, and rises to the hight of fifty to one hundred feet, and is utterly impassable, compelling everybody and everything to go around it. These walls are dykes of basalt, which cut through the horizontal strata of soft, white sandstone and clay. They are generally vertical and run in all directions, even in curves. These dykes have cooled in square, cubic blocks; and as if to render the delusion more perfect, there is a whitish, decomposed granite substance in the joints that very much resembles mortar. It is almost impossible to believe that they are of Nature's handiwork, and not built by the hands of man.

Still further up the river is a natural fort of large size, of light, creamy-colored stone. Besides these principal objects, there are hundreds of others almost as curious; such as cliffs, statues, sentinels, forts, castles, cathedrals, congregations of Quakers, pinnacles, basaltic dykes and peaks, that extend from near Drowned Man's Rapids to Eagle Creek. In fact, for magnificent scenery, the bad-lands of the Missouri are very remarkable.

In the Senate the resolution to survey a route for a ship canal between Lakes Erie and Ontario was adopted. A substitute for the House supplementary reconstruction bill was reported from the committee on the judiciary, and went over under the rules. A bill relating to treaties with Indians was introduced, in which it is provided that they shall not be regarded as independent nations but as municipal organizations with whom contracts may be made. After an executive session adjourned. In the House the resolution of thanks to Mr. Peabody was adopted. The appropriation for the destitute in the South was taken up in committee of the whole, but was not finally acted upon. A bill to more effectually preserve the neutral relations of the United States was referred to the committee on foreign affairs. The House adjourned.

Havana is enjoying the carnival. The display on Wednesday exceeded anything before witnessed, in the city. There was a long double line of carriages, estimated at over 2000, extending a distance of over three miles, occupied by ladies and gentlemen, many in masks and many in fancy dresses. The ladies, as a general rule, wore patches and powder, almost enough to disguise them as effectually as if they wore masks. Many carriages were driven tandem, and others got up with great taste—several horses and postillions in livery. The stable-keepers reaped a harvest, demanding, and getting too, $50 and over for a coach and pair for the afternoon. Numbers of mounted police kept the whole line in order, expelling any rattle-trap of a carriage or troublesome mask.

The President and Repudiation.

SPEECH BY GEN. BUTLER AGAINST RELIEF FOR THE SOUTH.

Washington, March 15.

The following order has just been issued by the War Department:

In pursuance of the act of Congress entitled "An Act to provide for the more efficient government of the rebel States," the President directs the following assignments to be made:

First District, State of Virginia, to be commanded by Brevet Major General J. M. Schofield; headquarters, Richmond, Va.

Second District, consisting of North Carolina and South Carolina, to be commanded by Major General D. E. Sickles; headquarters, Columbia, S. C.

Third District consisting of the States of Georgia, Florida and Alabama to be commanded by Major General G. H. Thomas, headquarters Montgomery, Ala.

Fourth District consisting of the States of Mississippi and Arkansas to be commanded by brevet Major Gen. E. O. C. Ord, headquarters, Vicksburg, Miss.

Fifth District, consisting of the States of Louisiana and Texas, to be commanded by Major Gen. P. H. Sheridan. Headquarters, New Orleans, La.

The powers of departmental commanders are hereby delegated to the above named district commanders. By command of

THE NEW HAMPSHIRE ELECTION.

GEN. HARRIMAN'S MAJORITY BETWEEN THREE AND FOUR THOUSAND

Concord, N. H., March 15. The latest returns indicate that Gen. Harriman's majority will exceed three thousand. It would not be surprising if the final footing up should give him thirty-five hundred. The *Patriot* concedes his election by twenty-five hundred majority, and says that the result of the election is far less favorable than the democrats hoped for, and less so than many of their friends expected.

The Senate will stand nine Republicans to three Democrats—the same as last year.

The Republicans have carried five of the counties sure, while Grafton is in doubt. There is also some doubt as to the Democrats having carried the entire ticket in Merrimack County, the vote for Register of Deeds being quite close.

THE

CENTRAL PACIFIC R. R. CO.

Having Completed, Equipped and put in operation nearly One Hundred Miles of their Road, from Sacramento, California, to within 12 Miles of the summit of the Sierra Nevada Mountains, continue to offer for sale, through us, their

FIRST MORTGAGE BONDS

Issued in conformity with the Acts of Congress and the laws of the State of California upon the division of their Road located in the State of California, and extending one hundred and fifty-six miles from Sacramento City to the California State line.

The Bonds have Thirty Years to run from July 1, 1865, and are secured by a

FIRST MORTGAGE,

constituting an absolute prior lien on the portion of Road above named, with all the Rights, Franchises, Equipments, &c., pertaining thereto.

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is DECLARED BY ACT OF CONGRESS TO CONSTITUTE A LIEN PRIOR AND SUPERIOR TO THAT OF THE UNITED STATES GOVERNMENT.

Interest at the rate of six per cent. per Annum, payable Semi-Annually, on the First days of January and July

Principal and Interest payable in

UNITED STATES GOLD COIN.

In the City of New York.

The price of the Bonds is fixed for the present at 95 per cent, and accrued interest from January 1st in Currency, the Company reserving the right to advance the price whenever it is their interest to do so

The Road forms the Western part of the

MAIN TRUNK

of the

Great National Pacific Railroad,

authorized, adopted and aided by the

UNITED STATES GOVERNMENT

It runs through the heart of the richest and most populous section of the State of California, connecting the

Extensive Mining Regions of Nevada, Utah and Idaho

with Sacramento and the Pacific Coast, from whence their supplies must be drawn; and the Earnings of the portion already running are very heavy, *and largely in excess of the interest upon the Company's Bonds.*

Having been for some time familiar with the operations of the Central Pacific Railroad Company, we are satisfied that they are conducted with rare ability and prudence, and that the energetic and economical management of the Company's affairs entitles them to the confidence of Capitalists and of the public. We have carefully investigated the progress, resources, and prospects of the Road, and have the fullest confidence in its success, and in the value and stability of the Company's securities. The attention of Trustees of Estates, Institutions, and individuals desiring a long, safe and remunerative investment, is especially invited to these First Mortgage Bonds.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

FISK & HATCH,

Bankers & Dealers in Government Securities,

No 5 Nassau Street, N. Y.

N. B.—All kinds of Government Securities received at the full market price in exchange for the above Bonds. Also,

☞ All Description of Government Securities kept constantly on hand, and Bought, Sold or Exchanged.

☞ Gold Coin and U. S. Coupons bought, sold, and collected.

☞ Deposits received on liberal terms, subject to check at sight.

☞ Collections made throughout the country.

☞ Miscellaneous Stock and Bonds bought and sold at the Stock Exchange on commission for cash.

☞ Special Attention given to the Exchange of SEVEN-THIRTY NOTES of all the series for the New FIVE-TWENTY BONDS of 1865, on the most favorable terms.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce AND APPLICABLE TO EVERY VARIETY OF DISH

EXTRACT of a letter from a MEDICAL GENTLEMAN at Madras, to his Brother at WORCESTER, May 1851.

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is in my opinion, the most palatable as well as the most wholesome Sauce that is made.

The success of this most delicious and unrivaled condiment having caused many unprincipled dealers to apply the name to Spurious Compounds, the Public is respectfully and earnestly requested to see that the names of Lea & Perrins are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

CONSTITUTION LIFE SYRUP!

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) diseases transmitted from PARENT to CHILD.

L

SCROFULA.

STRUMA, GLANDULAR SWELLINGS,
ULCERATION. KING'S EVIL,
ERYSIPELAS, SALT RHEUM.

This taint (hereditary and acquired, filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years standing have been cured.

I

NERVOUSNESS.

NERVOUS DEBILITY, SHATTERED NERVES,
ST. VITUS' DANCE, LOSS OF POWER,
CONFUSION OF THOUGHTS, EPILEPSY,

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than in promises.

MERCURIAL DISEASES.

SALIVATION, ROTTING OF BONES,
BAD COMPLEXION, ACHES IN BONES
FEELING OF WEARINESS. DEPRESSION OF SPIRITS,

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP

Eradicates, root and branch, all Eruptive Diseases of the Skin like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS, Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depend upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

"All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen and in the female, Dropsy of the ovaries and womb, generally accompanied with Inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sypamthetic or Organic Diseases of the Heart, as palpitation, Diseases of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ—persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

Broken-down and delicate constitutions suffering from Indisposition to exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry, Hot Skin and Extremities, Want of Sleep, Restlessness, Pale, Haggard Countenance and Lassitude of the Muscular System, all require the aid of the Constitution Life Syrup.

R

FOR ALL FORMS OF

ULCERATIVE DISEASES,

Either of the Nose, Throat, Tongue, Spine, Forehead, or Scalp no remedy has ever proved its equal. MOTH PATCHES upon the female face depending upon the diseased action of the liver are very unpleasant to the young wife and mother. A few bottles of the CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposite which is directly under the skin.

In the diseases of the Liver, giving rise to Languor Dizziness, Indigestion, Weak Stomach or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of Constitution Life Syrup.

U

☞ As a general Blood Purifying Agent the Life Syrup stands unrivalled by any preparation in the World.

THE RICH AND POOR

are liable to the same disease. Nature and Science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD

produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

Price, $1 25 per bottle: one-half dozzen for $7.

Peerless Cooking Stove.

Here is the opinion of the editor of the Boston *Journal.*—We have been very much pleased in examing a stove of this pattern, manufactured by Messrs. Pratt & Wentworth of Roxbury for the Paris Exposition, at the store of W. F. Shaw & Co., 569 Washington Street. It is one of the most beautifully finished articles of kitchen furniture we have ever seen, the mouldings being steel finished, the knobs and handles silver plated, the tank and hot closet are made of German silver, all the hollow ware used on the stove is finely enamelled, and the tea-kettle is of burnished copper.

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove."

AMERICAN ORGANS.

[From "Godey's Ladies' Book," February, 1866.]

—0—

REED ORGANS, &c.

The following remarks and suggestions relative to this immensely popular instrument will doubtless interest and profit very many of our readers; we commend the article to their careful perusal;

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc., etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument, as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really an essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article, knowing that there is hardly a family, or church, or school, in all the land, but is more or less interested in this topic. We are also aware of its being a great misfortune, a real calamity, to any of them, to purchase an inferior or worthless Organ, ruinous to good playing, and often cause of much annoyance and vexation. We got this article as emenating from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "reed organs?" We answer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior, and a more high sounding name. But an organ, to be in reality an *organ*, must have a wind-chest or reservoir for air, separate from the bellows room, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full, round tone, similar to the flute or pipe organ even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air-passage, instead of a wind-chest or sound-box. And yet some makers even go so far as to claim this spasmodic or alternate jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called or melodeon, which has the wind acting directly up on the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more other objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hard or soft blowing but convenient, so that the player can use it with the knee, separate from the hands or feet, and thus always under easy control, to be used *ad libitum*.

The large divided bellows, or double bellows, also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus permitting the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind-chest or reservoir, all will be well. As to the reeds, they must be scientifically tuned and voiced, or all the other good qualities in the world cannot produce a good toned instrument. The inquiry now very naturally arises, where can the organ be procured combining all these essential and desirable qualities?—There is only one possessing all these points, and that is the AMERICAN ORGAN, made by S. D. & H. W. SMITH, of Boston, SIBERIA OTT, Wholesale Agent, 581 Broadway, New York. These organs have a wind-chest extending the whole length of the instrument, and so constructed as to act at the same time as a reverberating sound-box or board, and having the same important relation and part to perform that the sounding board has to the piano. This feature the makers have patented, and to it are owing in a great measure the entirely unequalled fullness and richness of tone so highly prized by all who have used these organs. They also have the largest and best divided bellows in use, which is another important feature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically, and, judging from the immense sale of them at present, they bid fair to long maintain the proud position they have won by superior merit alone. We would most heartily advise all interested to call upon or address Mr. SIBERIA OTT, the WHOLESALE AGENT, at 581 Broadway, New York, and can assure them he will, in the most gentlemanly and truthful manner, impart to them all the information they may desire, and send them descriptive circulars relative to this truly delightful instrument.

AMERICAN ORGANS

THE MOST PERFECT AND BEAUTIFUL

MUSICAL INSTRUMENT IN THE WORLD FOR THE

AMERICAN HOME CIRCLE

The American Organ

Makes home attractive, refines and elevates the minds of all, beautiful in appearance and effects.

SIBERIA OTT,

581 Broadway, New York, Wholesale Agent,

The immense popularity of these Organs, and their superior Musical Powers, is fast bringing them before the public, as the instrument so long desired in AMERICAN HOMES. And although the cost price is but a trifle over the Melodeon, yet the musical advantages, beauty of tone and quickness of touch and action are so far superior, that they are fast superceding the Melodeon and the call is now almost exclusively for the

AMERICAN ORGANS.

It is adapted to any Music from the quickest and most lively, to the heavy tone of the Church Organ. And almost universally they are preferred to the Piano, by persons who have them, yet costing less than half, and only taking a small amount of room.

Send for descriptive circular giving full particulars and prices.

Exclusive Agencies secured to Dealers, and large discounts to the trade and Teachers. Address all orders,
